We discussed the movie nights and parent's night out. We have lifeguards available for those nights and are waiting on the social committee to plan the events.

We have concerns with the cleanliness of the pool and bathrooms. It's the number one issue/complaint we hear about. We are beginning a weekly call/conversation with upper management on Tuesday mornings to discuss our concerns.

We have a resident who will be looking to help with the pool deck lights that turn on and off during late night events such as swim meets. We believe he has a solution to fix it and should have it resolved soon.

We walked through the pool and inspected. No major issues were observed.
